

LUMINAIRE V-HANGER

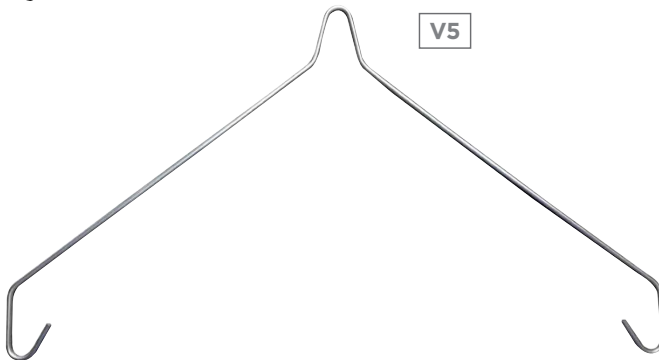

V2

V3

V4

V5

APPLICATION

- Recommended for the suspension of hanging luminaires in an indoor application.

FEATURES

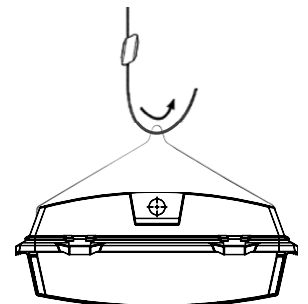

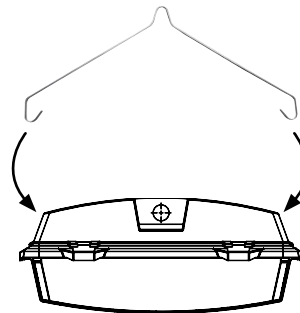

- Easily fits into the mounting holes of most luminaires.
- No tools required for installation.
- Precisely bent to simplify installation and ensure a secure fit.

MOUNTING OPTIONS

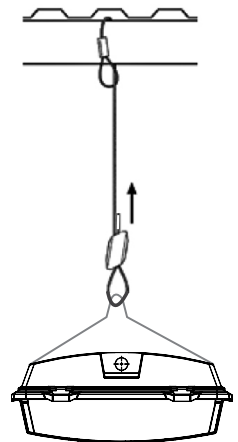

- V2 - Side Mount Hanger
- V3 - Top Mount Hanger
- V4 - High Bay Hanger
- V5 - VTH Hanger

GENERAL INSTALLATION

1. Insert the V-Hanger into the open mounting slots on the luminaire.
2. Pass the tail-end of the aircraft cable hanger through the V-Hanger.

3. Return the cable to the grip and push through the second channel, then pull rope through to required length.
